COMPANY DESCRIPTION

“SAISH TECHNOCRATS” is a multidisciplinary industrial service provider. We provide real value to all of our clients by achieving the best in the industry results and the highest level of professionalism in every service, project, and structure we deliver.

“SAISH TECHNOCRATS” is a company that has been providing manufacturing and supply of machinery and fabrication items to steel manufacturing plants to achieve minimum breakdown and to keep the plant in good working condition at the lowest possible cost.

Our **“TEAM”** has been able to build diverse experiences by working in a variety of projects. Our managing team strives to sustain an environment where all of the team members continuously better their skills and maintain the highest level of proficiency in their respective areas.

Our goal is to continue the development of our long term business relations by delivering quality workmanship, efficient production at a competitive cost, while making customer satisfaction our top priority.

VISION

Establish **“SAISH TECHNOCRATS”** as a well known supplier and manufacturer of mechanical elements while maintaining our uncompromising quality while we grow.

MISSION

Our mission is to achieve the production objective concerning quality, quantity, cost, and timeliness of delivery by effective utilization of the firm's resources.

Add. - Plot No.-108, Sy. No.-346, Near REC, Udyambag, Belgaum-590008

MACHINERIES WE HAVE

To provide a manufacturing facility with the capabilities of performing custom precision machining and production component manufacture work in prototype and production quantities while offering the latest in machining and fabricating techniques.

At Saish Technocrats, we manufacture a wide variety of components, including prototype and CNC production of machined parts in low to high volume. Our customers are in the pharmaceutical, Steel manufacturing and various high-tech industries. We machine many types of material including, but not limited to, forgings, castings, ductile iron, carbon steel, stainless steel and aluminum.

1) CNC Major Big Turn XL:-

Max Turning Diameter	300 mm
Max Turning Length	1225 mm
Swing Over Bed	450 mm

Add. - Plot No.-108, Sy. No.-346, Near REC, Udyambag, Belgaum-590008

2) List of other machines:-

S.No	Description	Quantity
1	Lathe 12" Center Height 9' Long	1 Nos
2	Lathe 10" Center Height 7' Long	4 Nos
3	Vertical Milling Machine 1300 X 300MM	1 Nos
4	Vertical + Horizontal Milling Machine 2000 X 450MM	1 Nos
5	Radial Drilling machine 50mm	1 Nos

Add. - Plot No.-108, Sy. No.-346, Near REC, Udyambag, Belgaum-590008

PRODUCTS WE SERVE

❖ MACHINING PRODUCTS:-

In order for our customers to have high-quality parts used in their products must be of equally high quality. We have a system in place by which to control the flow of information from order receipt to delivery, and thereby ensure high quality with the shortest possible lead-time.

Our products can meet the diverse needs of our customers. We can use our high-quality material to supply various parts suitable for hydraulic equipment, valves, pipe equipment, and other machines and equipment requiring critical design parameters.

❖ QUALITY CONTROL

A thorough quality-control system to meet your expectations for reliability.

Various inspections and tests are conducted as part of our processes to implement thorough quality control under the careful watch of our experts and the precise settings of machines. All our lines meet the relevant standards.

All kinds of ND tests will be carried out if required by the client.

Materials and Dimensional reports will be provided along with the supply.

All the material will be witnessed and Mill certificates will be submitted if required by the client.

The assemblies will be dispatched in a suitably designed packing's, which shall ensure adequate protection during transit.
